

# Dresser-Rand®

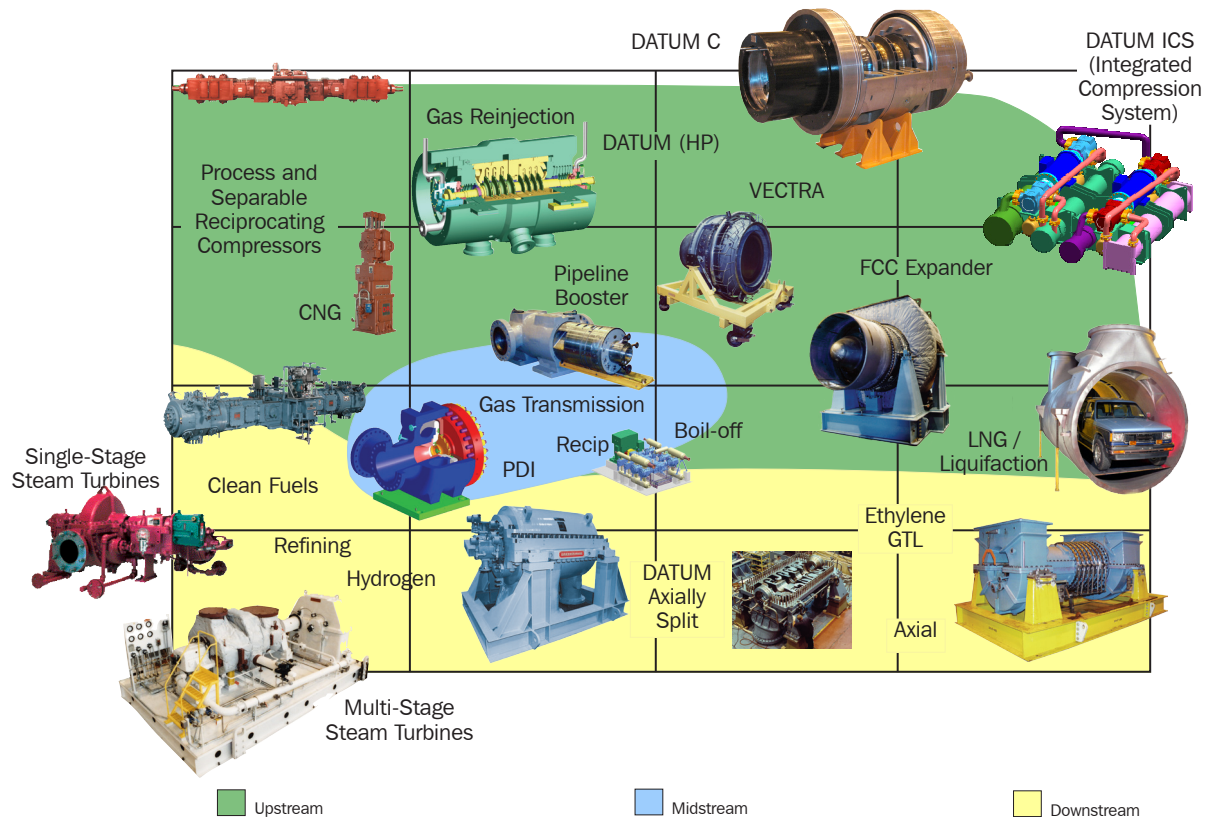

## Fact Sheet

### Overview

- 12 manufacturing facilities in seven countries
- More than 6,100 employees
- Approximately 40 service centers worldwide
- Publicly traded on New York Stock Exchange (NYSE:DRC)

### Served Markets

Most Dresser-Rand business derives from the three major segments of the oil and gas market—upstream, midstream, and downstream. Our products and services are used for a wide range of applications, including oil and gas production, high-pressure field injection and enhanced oil recovery, pipelines, refinery processes, natural gas processing, and petrochemical production.

### Products

Dresser-Rand is among the largest global suppliers of custom-engineered rotating equipment solutions for long life, critical applications in the oil, gas, petrochemical, and process industries. This equipment includes—

- Centrifugal and reciprocating compressors
- Steam turbines (mechanical and power generation applications)
- Gas turbines (mechanical and power generation applications)
- Hot gas expanders (FCC, nitric acid)
- Control systems (unit, plant)
- Ventilators

**Services**

Dresser-Rand has the most extensive global service and support organization in the industry with approximately 40 service centers worldwide, and more than one-third of it's global workforce engaged in product services and repairs. The company offers a full range of services for Dresser-Rand and most other brands of rotating equipment, including OEM parts, field solutions, revamps/rerates, remanufacturing, product training, and upgrades.

**Operations**

Our manufacturing capabilities are global, with ISO-certified, state-of-the-art facilities located in Olean, Painted Post and Wellsville, New York; Burlington, Iowa; Houston, Texas; Le Havre, France; Oberhausen and Bielefeld, Germany; Kongsberg, Norway; Peterborough, UK; Ahmedabad (Naroda), India; and Shanghai, China. Each facility is equipped to build-in the performance and reliability clients have come to expect from every Dresser-Rand product.

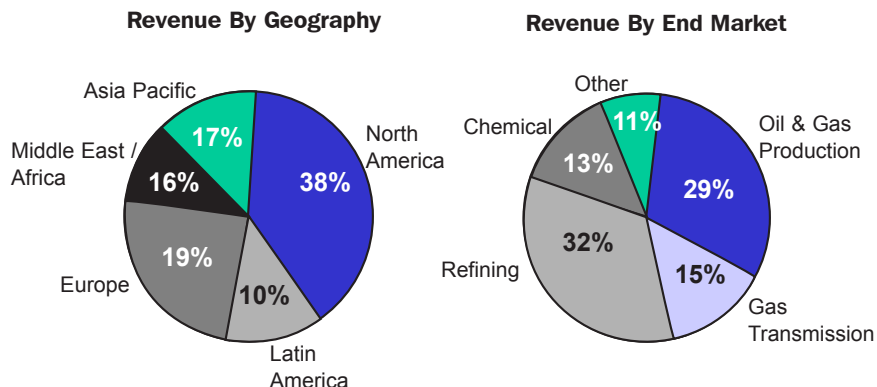

**Competitive Strengths**

*Technology*—One of the fundamental strengths of Dresser-Rand is technological leadership. We continue to invest in research and development projects that focus on helping our clients improve their operations. For example, by continually improving our DATUM® line of centrifugal compressors, we continue to help clients reduce energy consumption and emissions associated with the drivers that power this equipment.

*Largest installed base*—Dresser-Rand built its first compressor more than a century ago and now has more than 94,000 rotating equipment units installed in more than 140 countries.

*Experienced and dedicated workforce*—Our experienced workforce of more than 6,100 employees help clients find the best solutions for their rotating equipment needs.

**Revenue (Year Ended 12/31/09)**

In 2009, Dresser-Rand revenue equaled approximately \$2.3 billion, with 88 percent derived from energy infrastructure spending (primarily oil and gas).
